10 Haul-Out Checks That Matter

The ten checks to make sure happen every time your yacht comes out of the water.

Vessel: _____ Haul-out date: _____ Shipyard: _____

1 BEFORE THE LIFT: SEA TRIAL

- ☐ **Engine temps, smoke and vibration under load**
Measure before she lifts, so you can compare.
- ☐ **Shaft-seal drip rate, at speed and at rest**
Write the number down for next year.

2 HULL AND UNDERWATER

- ☐ **Hull: blisters, moisture readings, gelcoat**
Inspect on the hardstand, straight after the wash.
- ☐ **Anodes renewed: hull, shaft, rudder, trim tabs**
Cheap to replace, expensive to forget.

3 RUNNING GEAR

- ☐ **Propellers, shafts, bearings and rudders**
Check for play and corrosion while nothing turns.
- ☐ **Every through-hull and seacock**
Exercise and service each one.

4 MACHINERY AND SAFETY

- ☐ **Raw-water impellers, belts and hoses**
Renew or inspect now, while it is easy to reach.
- ☐ **Life raft, EPIRB and flares: service and dates**
Safety gear only counts if it is in date.

5 GET IT IN WRITING

- ☐ **Every extra as a priced line**
Never 'as required'. Nothing added without approval.
- ☐ **Paint brand, litres and the relaunch date**
On the quote before you sign.

The full Annual Haul-Out Checklist is in The Yacht Owner's Kit: guides.marinehq.com.au/owners-kit · MHQ-HO-FREE · Free from Marine HQ. © Marine HQ Pty Ltd. An information sheet for your own vessel; it is not a survey, a compliance certificate or a substitute for a qualified marine professional.
