THE YACHT OWNER'S KIT

Start here

Four documents, written from the way Marine HQ crews look after the motor yachts we manage. This page says what each one is for and when to reach for it.

WHAT IS IN THE KIT

- 1 Owner Checklists**
Pre-Departure, Stand Down and Wash-Down: the three routines our crews run on every yacht we manage.
WHEN Every trip, and every wash. Print, laminate and keep them aboard.
- 2 Annual Haul-Out Checklist**
Everything that should happen while she is out of the water, in the order the yard works through it.
WHEN Once a year. Send it to the yard with your request for a quote, then tick it off on the hardstand.
- 3 Running Cost Calculator**
A spreadsheet that works out what she costs a year, a month and a day you use her, and prices a passage.
WHEN Now, with your own figures, and again whenever a quote or a renewal changes a number.
- 4 Scheduled Maintenance Programme**
What to do and how often: 121 maintenance tasks, grouped by system and by how often they fall due.
WHEN Fortnightly, monthly and annually. Work down the fortnightly list first; it is the one that keeps a yacht right.

A YEAR WITH THE KIT

This week	Open the calculator and put your own berth, insurance and fuel figures in.
Every trip	Pre-Departure before you let go. Stand Down when you are back in the berth.
Every fortnight	Wash-Down, then the fortnightly list in the maintenance programme.
Every month and quarter	The monthly and quarterly lists. Diarise them once and they stop being forgotten.
Once a year	The haul-out checklist, sent to the yard before you ask for a quote.
